

Increase communication, customer and employee satisfaction
while increasing productivity and creating a competitive advantage

Enterprise Social Networking Solution as a Service™ is a bundled solution for your business that empowers you to be more innovative and helps you execute more quickly by using dynamic networks of co-workers, partners, and customers. Enterprise Social Networking Solution as a Service™ includes the server, customized software, and five days of consulting services to have you up and running in one week. From initial deployment to production, to ongoing managed services, you will quickly deploy a collaborative work environment to your entire organization discovering your collective expertise and delivering more results.

Enterprise Social Networking Solution as a Service™ -
pre-installed and deployed by the experts

AgreeYa understands the technical issues and business challenges you face when implementing software today. You may not have the time, funding, or resources to act on this important initiative. AgreeYa's Enterprise Social Networking Solution as a Service™ provides you with the pre-installed and pre-configured solution so you'll be up and running quickly at your site. Our Enterprise Social Networking Solution as a Service™ and QuickStart Services enable you to jump-start your collaboration initiative, providing a quick deployment of social business software.

If your requirements call for a more in-depth production roll-out, AgreeYa delivers an extensive set of service offerings designed to provide additional capabilities to enable more extensive integration into your existing software environments.

Enterprise Social Networking Solution as a Service™ delivers the best-of-breed social and collaborative software, including:
