

Increase communication, customer and employee satisfaction  
while increasing productivity and creating a competitive advantage

**Microsoft Office SharePoint Server (MOSS)** provides a single, integrated location where employees can efficiently collaborate with team members, find organizational resources, search for experts and corporate information, manage content and workflow, and leverage business insight to make better-informed decisions.

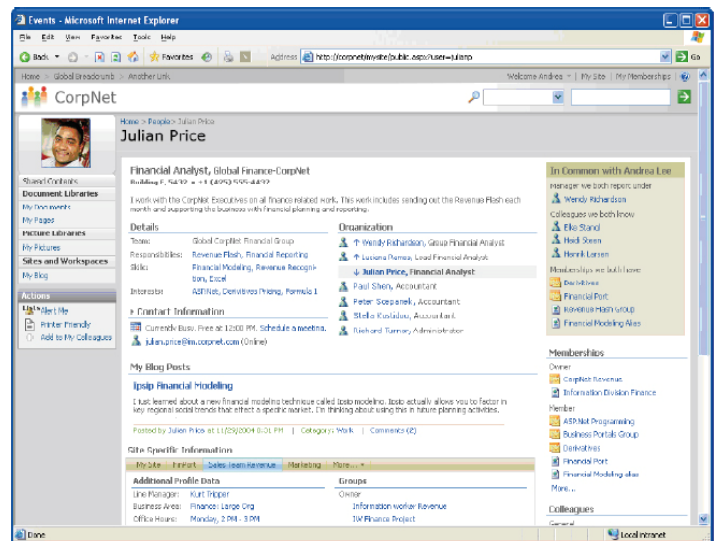

MOSS is a family of products, innovative technologies, and solutions for creating adaptive, unified, secure work environments that can be customized based on users' unique roles in the organization. Through MOSS you can quickly deploy a collaborative work environment to support your projects and teams.

Take advantage of our SharePoint Appliance -  
pre-installed and deployed by the experts

AgreeYa understands the technical issues and business challenges you face when implementing software today. You may not have the time, funding, or resources to act on this important initiative. AgreeYa's SharePoint Appliance provides you with the pre-installed and pre-configured solution so you'll be up and running quickly at your site. Our SharePoint Appliance and QuickStart Services enable you to jump-start your collaboration initiative, providing a quick deployment of SharePoint.
